

Lab Code	CSL802	Lab Name	Distributed Computing Lab
-----------------	--------	-----------------	----------------------------------

List of Experiments

Sr. No.	Title
1	Inter-process communication (TCP & UDP).
2	Implementation of multi-thread application (basic mathematical operations).
3	Group Communication (Absolute ordering).
4	Implement Remote Method Invocation (RMI) based application.
5	Load Balancing Algorithm.
6	Name Resolution protocol.
7	Bully election algorithm.
8	Clock Synchronization using Berkeley algorithm.
9	Lamport's algorithm for mutual exclusion.
10	CORBA.
